## Patiëntenparticipatiecultuur

*"Hoe heilig is het middel, en wat is het doel?"*

1

---

### KERNBOODSCHAPPEN

- ▶ Patiëntenparticipatie is geen éénvoudig gegeven!
- ▶ Een participatiemethode doen werken vraagt meer dan een gemotiveerde medewerker!
- ▶ Een participatiemethode doen werken vraagt meer dan de keuze voor een methode!
- ▶ Een cultuur kweken is op zoek gaan naar een gemeenschappelijke taal!

JCN Journal of Clinical Nursing

Journal of Clinical Nursing

Editorial: Tell me, how do you define person-centredness?

"It is easy to ask the question 'what matters to you' but it is quite another to meaningfully and authentically respond to another person's response."

WILEY

EDITORIAL

Values, virtues and initiatives—time for a conversation

If our goal is to develop person-centred healthcare systems that are genuinely concerned with placing "the person" at the heart of decisionmaking, then we need to STOP and rethink our obsession with quick-fix solutions and instead consider how far we are willing to compromise the values and virtues that are core to nursing.

Wong, J., & McCormack, B. (2017). Tell me, how do you define person-centredness? *Journal of clinical nursing*, 28(17-18), 2509-2510.  
McCormack, B., & Johnson, S. (2016). Values, virtues and initiatives—time for a conversation. *Journal of advanced nursing*, 74(2), 753-754.
